13U & 14U Roster & Substitution Rules

New this year, 14U and younger teams are required to have a minimum of 9 players on the score sheet in order to be eligible to participate in a match. No player will be eligible to participate in all three sets. Substitutions are not permitted in the first or second set. In the case of injury, an Exceptional Substitution may be made. The injured/ill player may not return to the same set but may return to play in subsequent sets. If a player is expelled or disqualified, there must be a legal substitution allowed for the set to continue. If a player is expelled in the first set, the expelled player may not start the second set but would be allowed to start the third set. **If a player has played in the first two sets, they will not be eligible to play in the third set.** In the third set, 12 unlimited substitutions are permitted among eligible players (i.e. players who have not played in both of the first two sets). Considerations may be made for injury/illness as appropriate.

Rationale:

The purpose of this rule is to remove the incentive of “shortening the bench” as a way around the VC Fair Play rules. This will put a team which has 9 players on the score sheet (or 10 or 11) in the same position as a team with 12, where they can only play any given player in two of three sets. This rule is being implemented on a one-year trial and will be re-evaluated for next season.

Please note that if a team has 12 players in attendance, this is not designed to allow that team to only list 9 on the game sheet. All available and able players should be included whenever possible. Referees should note in the Remarks section of the game sheet if it appears that a team is leaving healthy players on the bench off of the game sheet.

Enforcement:

Rosters and lineups should be confirmed by referees and scorekeepers prior to each set. This is especially important in the third set, to confirm that the lineup is legal (i.e. comprised completely of eligible players).

If, after the third set has begun, it is discovered that an athlete on the floor has already played in the first two sets, they will be treated as an ineligible player and the team will lose all points scored so far, with the opposing team keeping their points, plus gaining a point and service.

If, during the third set, a player who has played in the first two sets is subbed in, it will be treated as an illegal substitution (per rule 15.9 - VC Rule Book).

Teams with fewer than 9 players at a match:

We understand that during the course of a season / event, especially at the 13U and 14U age categories, athletes may need to miss games for other activities. It is our hope that with teams being required to roster 12 players, fielding at least 9 for any given match shouldn't be an insurmountable task.

If a player gets injured during a tournament and a team has fewer than 9 players available for a match, the match will proceed as normal through the first two sets, with all players on the game sheet required to start either the first or second set. Should the match reach a third set, the team with fewer than 9 will be required to start all players who have only participated in one set so far, and choose the additional starters from their remaining players on the game sheet. The opposing team will be exempt from the “2-set-maximum” rule and be able to play any lineup they wish in the third.
